

**Peninsula Township Parks - Projects Worksheet**

Peninsula Township is seeking public input regarding several capital projects identified by the parks committee while drafting the 2022 Parks Funding Feasibility Study. You can download a complete copy of the study at [www.participateoldmission.com](http://www.participateoldmission.com).

**For this survey, you may vote for up to five (5) of your favorite projects, and then identify one of those as your top priority. You may only vote once for a specific project.** This worksheet contains a brief description of each project, including cost estimates where available. Parks listed are: BH = Bowers Harbor; HAS = Haserot Beach; KE = Kelley Park; ARCH = Archie Park; PEL = Pelizzari Natural Area; LHP = Mission Point Lighthouse Park; OMSP = Old Mission State Park; HLC = Hessler Log Cabin; and DH = Dougherty House. For more information on each park, download a copy of the 2022 Funding Feasibility Study (above) or visit the Parks page on the township's website at [www.peninsulatownship.com](http://www.peninsulatownship.com).
